Progress Towards Meeting District Goals

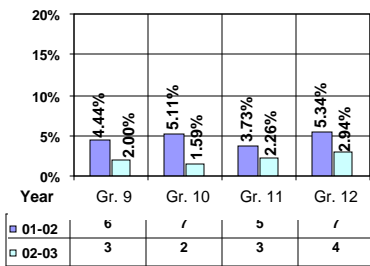

2002-03 Goals	Progress
Develop assessments for state and local standards	Local staff continues to review state and local standards while developing assessments to measure student progress and mastery.
Curriculum offerings to be expanded to meet the needs of students and community development	Course offerings are being reviewed and upgraded to include health care professional training for secondary students. Offerings were expanded to include Certified Nursing Assistance training and will include Emergency Medical Training certification for qualified students. Collaboration with other providers including Lewis and Clark State College and local industry providers are helping with the expansion.
Continue to improve staff and community communication efforts	A district newsletter has been published and plans to continue with bulk mailing of copies to all patrons are expanding the school messages to all patrons. A key communicators email list helps to provide a quick and accurate information pipeline to interested patrons. The district web page provides a communication link to help in community and patron response to questions of interest.
Stability in funding of educational programs.	Continued adjustment of long term expenditures and plans to meet district needs are an ongoing tool to provide stable expenditures, which do not exceed revenue sources. The district's strategic plan provides a focus for financial decision-making.

In order to meet the terms of the compliance agreement with the U.S. Department of Education and the requirements of No Child Left Behind, the 2003 Spring ISAT administration assessed students in grades 4, 8, and 10, in the areas of reading, language arts, and mathematics. Additional grade levels will be assessed in each of the next two years in order to be in complete compliance by 2005.

For School Year 2002-03 the grades to be assessed by the Direct Writing Assessment were changed by the State Board of Education from 4, 8, and 11, to grades 5, 7, and 9. During the 2002-03 school year, the DWA was piloted to a sample of 5,000 students each of two grades, 5 and 9. Consequently, no results will be posted for those grades.
